Transfer Tables	Yes	Comp Items -- Edit	Yes
Split Checks	Yes	Transfer Servers	Yes
Apply Gratuity -- Edit	Yes	Reprint Kitchen Printout	Yes

There is a large number of permissions that can be configured in Employee Maintenance. Refer to the document entitled "[Creating Employees](http://faq.pcamerica.com)" (found on <http://faq.pcamerica.com>) if you do not know how to configure these permissions.

This document will explain what actions are allowed or denied in Restaurant Pro Express by individual permissions.

Hot buttons are mentioned throughout this document. Refer to the document entitled "[Creating a Hot Button](http://faq.pcamerica.com)" (located on <http://faq.pcamerica.com>) if you do not know how to create these buttons.

Functionality – Setup Screen Page 1

Invoice Discounts determines whether or not the employee can apply discounts to invoices.

There are several methods of applying discounts and thus triggering this permission, all of them starting on the invoicing screen:

1. Select **Manager**, Invoice Properties, and then Discount.
2. Select **Manager**, Invoice Properties, and then Desired Grand Total.
3. Select **Line Discount** after selecting an item on the invoice.
4. Select **EDITS** and then **DISCOUNT**.
5. Select a “**closed discount**” hot button.

Invoice Price Changes determines whether or not the employee can select the “price change” hot button on the invoicing screen.

Delete Items determines whether or not the employee can select **DELETE** after selecting an item on an invoice.

Void Invoices determines whether or not the employee can void an invoice.

There are several methods of voiding invoices and thus triggering this permission, all of them starting on the invoicing screen:

- Select **EDITS** and then **VOID INVOICE**.
- Select the “void” hot button.

Allow Exit determines whether or not the employee can exit from the invoicing screen by selecting **Exit**.

To apply this permission to exiting the program itself, follow these steps:

1. Select **Manager** from the login screen.
2. Provide the requested credentials.
3. Select **Setup**.
4. Select **Setup Screen**.
5. Select the **System Access** tab.
6. Check **Check Exit Permission when Exiting from Login Screen**.
7. Select **Update**.

Returns determines whether or not the employee can process returns.

There are several methods of processing returns and thus triggering this permission, all of them starting on the invoicing screen:

- Scanning or entering the bar code printed on receipts and selecting **Return Items** on the window that pops up.
 - This is assuming that **Print Bar Code on “Complete” Receipts** is checked in the **Receipt** tab of **Setup Screen**.
- Selecting the “return next item” hot button.

End Transactions determines whether or not the employee can press **PAY** on the invoicing screen.

Open Cash Drawer determines whether or not the employee can open the cash drawer without making a sale first.

There are several methods of opening the cash drawer and thus triggering this permission, all of them starting on the invoicing screen:

- Select **Manager** and then **Open Drawer**.
- Select the “open cash drawer” hot button.

Sell Non-Inventory determines whether or not the employee can modify the price of an item by selecting it on an invoice and then selecting **MODIFY**.

Tax Exempt Invoice determines whether or not the employee can make an invoice or items on an invoice tax-exempt.

There are several methods of making invoices or items on them tax-exempt and thus triggering this permission, all of them starting on the invoicing screen:

- Select **Manager, Invoice Properties**, and then either **Tax Exempt Invoice** or **Tax Exempt Additional Items**.
- Select the “tax exempt” hot button.

Sell Gift Cards determines whether or not the employee can sell gift cards.

There are several methods of selling gift cards and thus triggering this permission, all of them starting on the invoicing screen:

- Select **NONE** and then **Gift Card** (both are displayed on the touchscreen by default).
- Select the “gift card” hot button.

Redeem Gift Cards determines whether or not the employee can redeem gift cards.

There are several methods of redeeming gift cards and thus triggering this permission, all of them starting on the invoicing screen:

- Swipe a gift card.
- Select **PAY** and then **Gift Card**.

Sell Special Items determines whether or not the employee can sell items marked as “special” within Inventory Maintenance.

To mark an item as “special”, follow these steps:

- Select **Manager** from the login screen.
- Provide the requested credentials.
- Select **Inventory Maintenance**.
- Navigate to an item.
- Check **Special Permission**.

Select **Save**.

Vendor Payouts determines whether or not the employee can select **Vendor Payouts** after selecting **Manager** and **Tools**.

Force Credit Cards determines whether or not the employee can force a credit card transaction by selecting **PAY** from the invoicing screen, **Credit Card, Force**, entering appropriate information, and selecting **OK**.

Functionality – Setup Screen Page 2

Cash Alert Override determines whether or not the employee can press **Override This Sale** when the cash lockup level is exceeded and they are prompted to remove cash.

To turn on cash alerts, follow these steps:

1. Select **Manager** from the login screen.
2. Provide the requested credentials.
3. Select **Setup**.
4. Select **Setup Screen**.
5. Select the **Quick Invoicing & Alerts** tab.
6. Check **Use Cash Alerts**.
7. Select **Update**.
8. Additionally, the employee's job code must have **Cash Bank** checked.

Cash Pickups determines whether or not the employee can select **Cash Pullout** after selecting **Manager** and **Tools** or in response to a cash alert.

Issue Credit Slip determines whether or not the employee can issue a credit slip.

To issue credit slips for all returns, follow these steps:

1. Select **Manager** from the login screen.
2. Provide the requested credentials.
3. Select **Setup**.
4. Select **Setup Screen**.
5. Select **Invoice Settings**.
6. Select "Print Store Credit Slip" under "Return Media".
7. Select **Update**.

Redeem Credit Slip determines whether or not the employee can redeem a credit slip by scanning the barcode on it.

Override Refund determines whether or not the employee can override gift card refunds when returning items.

Automatic refunds to gift cards must be set up by following these steps:

1. Select **Manager** from the login screen.
2. Provide the requested credentials.
3. Select **Setup**.
4. Select **Setup Screen**.
5. Select **Invoice Settings**.
6. Select "Gift Card Only" under "Return Media".
7. Select **Update**.

Allow Large Purchases determines whether or not the employee can sell an item flagged as a “large purchase”.

To specify the amount that flags an item as a “large purchase”, follow these steps.

1. Select **Manager** from the login screen.
2. Provide the requested credentials.
3. Select **Setup**.
4. Select **Setup Screen**.
5. Select the **Invoice Settings** tab.
6. Select **Page 2**.
7. Fill in the “Amount That Flags Item as a Large Purchase” field.
8. Select **Update**.

Approve Cash Count determines whether or not the employee can approve their own cash count when they log out. They won’t be required to perform a cash count unless their job code has **Cash Bank** and **Require Cash Count Screen on Clockout** both checked.

Allow Old Returns determines whether or not the employee can override the “Valid Return Window,” which is set by following these steps:

1. Select **Manager** from the login screen.
2. Provide the requested credentials.
3. Select **Setup**.
4. Select **Setup Screen**.
5. Select the **Invoice Settings** tab.
6. Fill in the “Valid Return Window” field.
7. Select **Update**.

Approve Emergency Clockout determines whether or not the employee can clock out other employees in an emergency by selecting the clock icon (located on the login screen), entering their credentials or swiping their card, and selecting **Emergency Clockout**. Note that this button will not appear if this Permission is set to “No”.

Pullback Invoice determines whether or not the employee can pull back, or reopen, an invoice by selecting **Manager** from the invoicing screen and then **Pullback Invoice**.

Timeclock Management determines whether or not the employee can access the Timeclock Management screen. There are two ways to access this screen:

- Select **Manager, Administrative**, and then **Time Clock Management**.
- Select **Manager, Administrative, Employee Maintenance**, and then **Time Clock Management**.

Edit Your Own Time determines whether or not the employee can press **Delete Clock-Out, Delete Entry, or Modify Closeout** when accessing their own times in Time Clock Management.

Discounts Below % determines whether or not the employee can apply a discount greater than the “Invoice Discount Security Level,” which is set up by following these steps:

1. Select **Manager** from the login screen.
2. Provide the requested credentials.
3. Select **Setup**.
4. Select **Setup Screen**.
5. Select the **Invoice Settings** tab.
6. Select **Page 2**.
7. Fill in the “Invoice Discount Security Level” field.
8. Select **Update**.

Functionality – Setup Screen Page 3

Delete Sent Items determines whether or not the employee can send an item to a table, call up the invoice for that table, select the item, and then select **DELETE**.

End Cash Transactions determines whether or not the employee can select **Cash** after selecting **PAY** from the invoicing screen.

End Account Transactions determines whether or not the employee can select **On Account** after selecting **PAY** from the invoicing screen.

Override ID Scan determines whether or not the employee can press **Skip** when prompted to enter a birthday or scan an ID before selling an item.

Manual Age Entry determines whether or not the employee can enter a birthday when prompted to scan an ID before selling an item.

Override Emp Schedule determines whether or not the employee can allow another employee to clock in at a time that is not scheduled or too early or late relative to their scheduled time. Refer to the document entitled “Labor Scheduler” on <http://faq.pcamerica.com> if you are unfamiliar with the labor scheduler.

Labor Scheduler determines whether or not the employee can create and modify employee schedules using the Labor Scheduler. Refer to the document entitled “Labor Scheduler” on <http://faq.pcamerica.com> if you are unfamiliar with the labor scheduler.

Negative Price Changes determines whether or not the employee can select the **price change** hot button on the invoicing screen, and change the dollar amount to a negative value (i.e. **-\$20.00**).

Close Shift determines whether or not this employee can close an open shift through

Reprint Receipt determines whether or not this employee can use the **Print Last Receipt** button in the Options screen under Cashier. Or if they can use the **Re-Print** button after recalling an invoice.

Inventory

Add Inventory/Kits determines whether or not the employee can add inventory or kits. There are several methods of adding inventory or kits and thus triggering this permission, all of them starting on the invoicing screen:

- Select **Add Item** or **Duplicate** in Inventory Maintenance.
- Select **Manager, Administrative**, and then **Styles Matrix**.
- Select **Add** or **Duplicate** in Kit Maintenance.

Edit Inventory/Kits determines whether or not the employee can edit inventory or kits. There are several methods of editing inventory or kits and thus triggering this permission, all of them starting on the invoicing screen:

- Select **Save** in Inventory Maintenance.
- Select **Manager, Administrative**, and then **Mix 'N Match Pricing**.
- Select **Update** in Kit Maintenance.

Add Vendor determines whether or not the employee can select **Add** in Vendor Maintenance.

Update Vendor determines whether or not the employee can select **Save Changes** in Vendor Maintenance.

Add Department determines whether or not the employee can select **Add Department** in Department Maintenance.

Edit Department determines whether or not the employee can select **Save Changes** in Department Maintenance.
