Process Debit Cards through this Credit Card Processor

Scale | **Update** | **Exit**

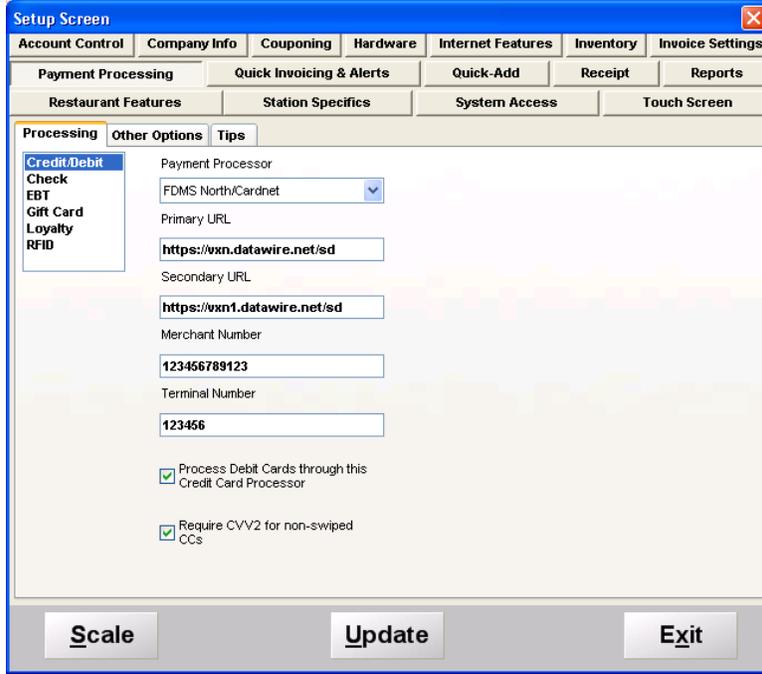

In order to use First Data a specific .dll file (vxncom.dll) must be registered and the software must be running CRE/RPE version **12.8033** or later.

Checking that the .dll file has been Registered

	<ol style="list-style-type: none">1. Select Start.
 <p>The image shows the Windows 'Run...' dialog box. The title bar says 'Run...'. Below the title bar, there is a text area with the instruction: 'Type the name of a program, folder, document, or Internet resource, and Windows will open it for you.' The 'Open:' field contains the text 'cmd'. At the bottom, there are three buttons: 'OK', 'Cancel', and 'Browse...'.</p>	<ol style="list-style-type: none">2. Select Run and type in cmd. This will open the command prompt.
 <p>The image shows a Windows command prompt window titled 'C:\WINDOWS\system32\cmd.exe'. The window content shows the following text: Microsoft Windows XP [Version 5.1.2600] <C> Copyright 1985-2001 Microsoft Corp. H:\>Regsvr32 "C:\Program Files\CRE.NET\vxncom.dll" H:\>_</p>	
<ol style="list-style-type: none">3. At the command prompt type in: Regsvr32 "C:\Program Files\CRE.NET\vxncom.dll" then hit Enter.4. You will get a message that states that says that it successfully registered the vxncom.dll.	

Changing settings in CRE/RPE

	<ol style="list-style-type: none"> 1. Select the Manager or Options button. 2. Enter the administrator password (default: admin) where applicable. 3. Select Setup then, Setup Screen.
	

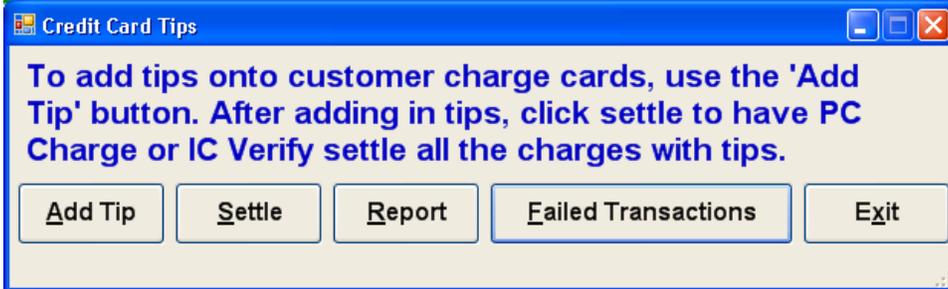

4. At the **Setup Screen** select **Payment Processing**.
5. With **Credit/Debit** selected select **First Data** as the **Payment Processor**.
6. For the **Primary URL** enter **https://vxn.datawire.net/sd**.
7. For the **Secondary URL** enter **https://vxn1.datawire.net/sd**.
8. Using your Setup Sheet (supplied by the merchant provider). Enter your **Merchant Number** and enter your **Terminal Number** which will have one for each station.
9. If applicable select **Use Canadian Debit**.
10. Select **Require CVV2 for non-swiped CC's** and if applicable **Process Debit Cards through this Credit Card Processor**.
11. Select **Update** to save your changes.

Credit Card Settlement Info

Manager

Options

1. Select the **Manager** or **Options** button.
2. Enter the administrator password (default: admin) where applicable.
3. Select **Administrative** then, **Credit Card Settlement**.

At this window we can do the following:

- **Add Tip** - Add a tip to an existing transaction. You will be prompted for the invoice number and then the tip amount for that transaction.
- **Settle** - This will batch your transactions.
- **Report** - This will display the [Batch Status Report](#) window.
- **Failed Transactions** - Will display all the transactions that failed to batch.
- **Exit** - Will exit from this screen.

Settlement Pending

You have unsettled transactions waiting for approval. Please do the settlement immediately.

OK

When transactions have not been settled the screen (pictured left) will be displayed every 24 hours until the transactions are settled.

Batch Status Report Window

StationID	Last Batch CC/DEBIT/EBT	Transaction CC/DEBIT/EBT Count	Total Value CC/DEBIT/EBT	Last Batch Check
01	8/18/2011 2:00:00 PM	0	\$0.00	
02		0	\$0.00	

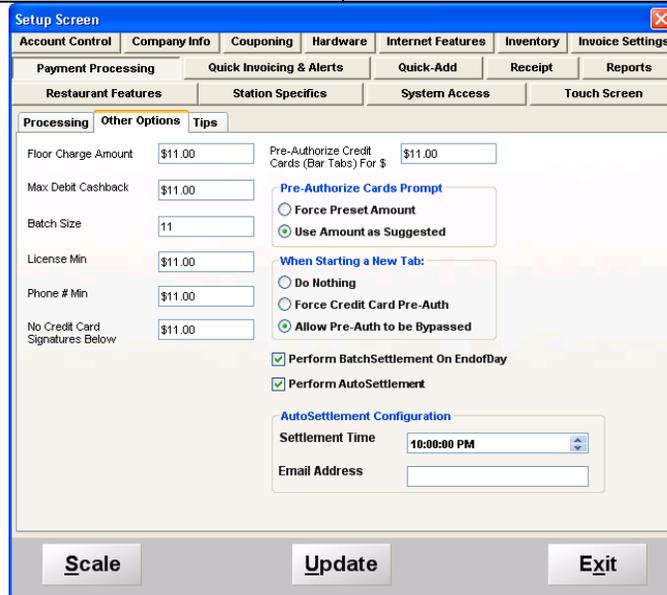

Done

This window will display the following information:

- **StationID** - This will display all of the stationID's.
- **Last Batch CC/Debit/EBT** - This will display the date that the last CC/Debit/EBT batch occurred. If the date is displayed in RED then the last batch was ran more than 48 hours ago.
- **Transaction CC/Debit/EBT Count** - This will display the total number of CC/Debit/EBT Batch transactions.
- **Total Value CC/Debit/EBT** - This will display the total value of CC/Debit/EBT Batch transactions.
- **Last Batch Check** - This will display the date that the last Check batch occurred. If the date is displayed in RED then the last batch was ran more than 48 hours ago.
- **Transaction Check Count** - This will display the total number of Check Batch transactions.
- **Total Value Check** - This will display the total value of Check Batch transactions.
- **Done** - Will exit from this screen.

Other Options

	<ol style="list-style-type: none">1. Select the Manager or Options button.2. Enter the administrator password (default: admin) where applicable.3. Select Setup then, Setup Screen.
	

4. At the **Setup Screen** select **Payment Processing**.
 5. Select the **Other Options** tab.
 6. Check **Perform Batchsettlement On EndofDay** this will settle all credit cards when the end of day is ran.
 7. If **Perform AutoSettlement** is checked:
 - A **Settlement Time** will be requested (Default 10:00:00 PM). This time should be set to a time after your business is closed.
 - An **Email Address** will also be requested which is optional and will send the settlement status to the address provided.
- To use the email feature settings must be configured in the Internet Settings: Email tab.
- Note: Any transactions waiting to have a tip applied to them will not be settled. These transactions require that a tip be manually applied to them. Optionally, a manual settlement can be done where you can add a zero tip to the transactions waiting for a tip.**
8. Select **Update** to save your changes.
