The following documentation will provide instructions for configuring the Heartland Payment Systems platform with CRE/RPE for gift card processing.

Be sure that you have your merchant information prior to setup.

You can receive your information directly from Heartland Payment Systems.

Note: To use the Heartland Payment Systems Platform you must be using version 12.6014 or above.

Configuring CRE/RPE for use with the Heartland Payment Systems Platform

Manager

Options

1. Select the **Manager** or **Options** button.
2. Enter the administrator password (default: admin) where applicable.
3. Select **Setup** then, **Setup Screen**.

The screenshot shows the 'Setup Screen' window with the following tabs: Account Control, Company Info, Couponing, Hardware, Internet Features, Inventory, Invoice Settings, Payment Processing, Quick Invoicing & Alerts, Quick-Add, Receipt, Reports, Restaurant Features, Station Specifics, System Access, and Touch Screen. The 'Payment Processing' tab is selected, and the 'Gift Card' option is highlighted in the left sidebar. The form contains the following fields:

Payment Processor	Heartland_ChockStone
Primary URL	https://ctp.chockstone.net
Profile Id	pos123456789123456
Password	****
Port No	443
Seller Profile ID	123456789123456
Domain	hps

Buttons at the bottom: Scale, Update, Exit.

4. At the setup screen select the **Payment Processing** tab.
5. Select **Gift Card**.
6. Select **Heartland_ChockStone** as the **Payment Processor**.
7. Make sure you fill in the appropriate URL under **Primary URL**:
 - <https://ctp.chockstone.net>
8. Enter the **Profile Id**, **Password**, **Port No**, **Seller Profile ID**, and **Domain** - this information should be supplied from Heartland Payment Systems Directly.
9. Select **Update** to save your changes.

At this point you will want to do a test transaction to be sure that everything is working properly.
