

Configuring CRE or RPE to Communicate with Merchant Warehouse (MerchantWare Pro)

This document will detail how to set up the MerchantWare Pro software as well as how to configure Cash Register Express (CRE) or Restaurant Pro Express (RPE) to communicate with MerchantWare. The document will include how to install and configure the MerchantWare Pro software as well as the configuration of CRE/RPE.

Installing MerchantWare Pro

Double Click the merchantwaresetup.exe file provided by Merchant Warehouse to begin the installation.

1. Select **Next**.

2. When prompted for the License Agreement select **I accept** then select **Next**.

3. Next, enter your desired User Name and Company Name, select **Anyone who uses this computer (all users)** and select **Next**.

4. For the **Destination Location** just leave the default and select **Next**.
5. Select **Install** to complete the Installation.

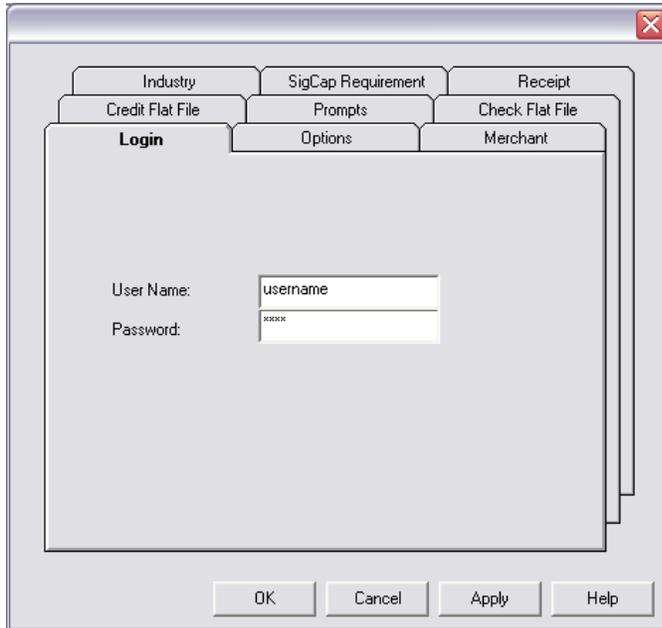

6. When the installation is complete a pop up Window will appear noting the software is installed. Select **OK**.

(NOTE: This may pop up behind the general installation process and the progress bar may not look complete but will finish after clicking the pop up dialog box).

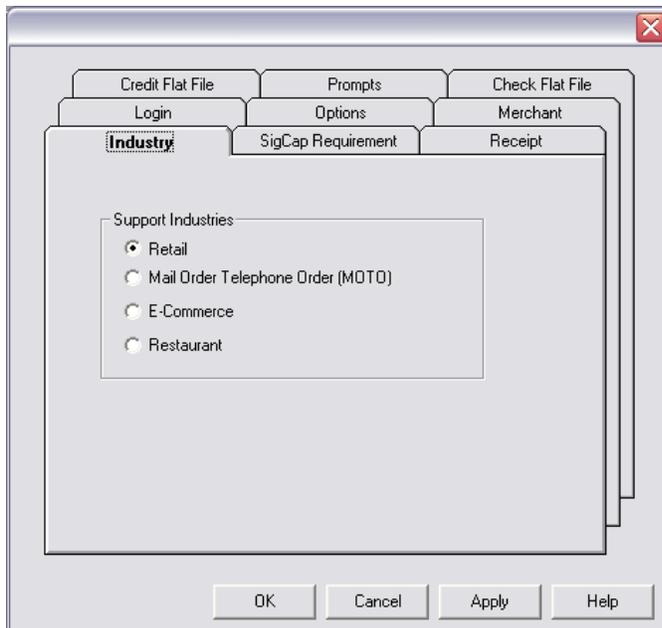

Configuring MerchantWare Pro

To configure MerchantWare Pro to communicate with Merchant Warehouse, select the **Start Menu > All Programs > MerchantWare Pro > MerchantWare Pro Admin.** (This will open the MerchantWare Pro software.)

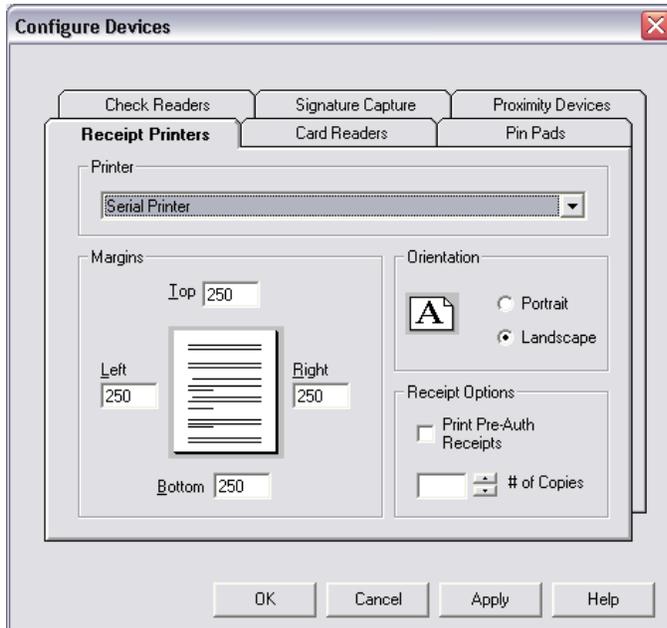

The screenshot shows the 'Login' tab of the MerchantWare Pro Admin dialog box. The dialog has a title bar with a close button (X). Below the title bar are several tabs: 'Industry', 'SigCap Requirement', 'Receipt', 'Credit Flat File', 'Prompts', 'Check Flat File', 'Login', 'Options', and 'Merchant'. The 'Login' tab is selected and active. It contains two input fields: 'User Name:' with the text 'username' and 'Password:' with 'xxxxx'. At the bottom of the dialog are four buttons: 'OK', 'Cancel', 'Apply', and 'Help'.

1. Select the first tab (Login) and input your chosen username and password.

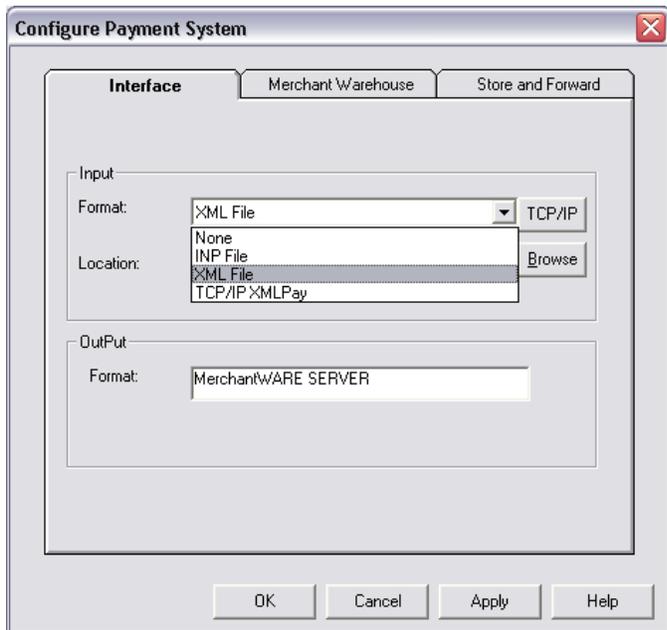

The screenshot shows the 'Industry' tab of the MerchantWare Pro Admin dialog box. The dialog has a title bar with a close button (X). Below the title bar are several tabs: 'Credit Flat File', 'Prompts', 'Check Flat File', 'Login', 'Options', 'Merchant', 'Industry', 'SigCap Requirement', and 'Receipt'. The 'Industry' tab is selected and active. It contains a section titled 'Support Industries' with a list of radio buttons: 'Retail' (selected), 'Mail Order Telephone Order (MOTO)', 'E-Commerce', and 'Restaurant'. At the bottom of the dialog are four buttons: 'OK', 'Cancel', 'Apply', and 'Help'.

2. Next, Select the **Industry** tab and select the appropriate Industry (generally Retail or Restaurant).
3. Finally, select **OK** to commit the changes.

4. Next, a **Configure Devices** screen will pop up, simply keep the default settings and select **OK**.

5. Next, a **Configure Payments** screen will pop up.
6. Select **XML File** under the **Format** drop down.

The screenshot shows the 'Configure Payment System' dialog box with the 'Merchant Warehouse' tab selected. The 'Setup Info' section contains fields for 'User' (filled with 'fakeuser'), 'Password' (masked with asterisks), and 'Register'. There are 'Init' and 'Profiles' buttons next to the password field. Below this is a section for 'Enter Server Machine Name or IP Address' with 'URL1' and 'URL2' fields, both filled with 'ps1.merchantware.net'. A checkbox labeled 'Do NOT Use SSL' is present and unchecked. At the bottom are 'OK', 'Cancel', 'Apply', and 'Help' buttons.

7. Next, select the **Merchant Warehouse** tab and input the appropriate user name and password for processing. Select **Init** to check the connection (it should show **Initialization Complete** if successful.)
8. Select **OK** to commit changes.

The screenshot shows the 'Register License' dialog box. It contains a text block: 'Input your Serial Number without spaces. Once you click Register, your license information will be sent to a centralized license registration system. No personally identifiable information will ever be sent from your computer.' Below this are three input sections: 'System ID' with the value '67991121', 'Serial Number' with four empty boxes separated by dashes, and 'E-mail' with an empty text field. At the bottom are 'Register' and 'Cancel' buttons.

9. Finally, input the proper registration data and select **Register** (selecting **Cancel** will give you a 30 day trial).

10. Select **Tools** and then select **Control Panel**.

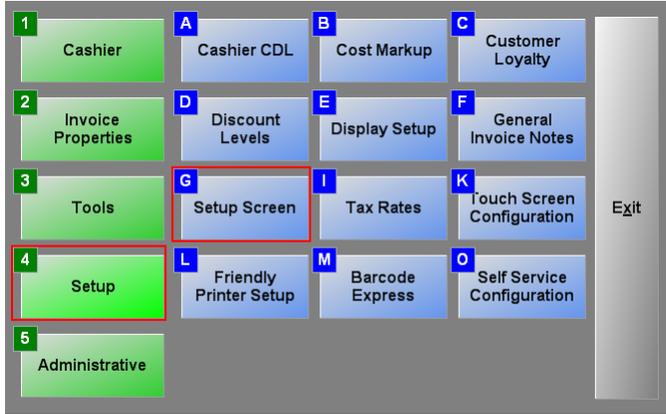

11. Select **Start** to start the MerchWare Pro background service.

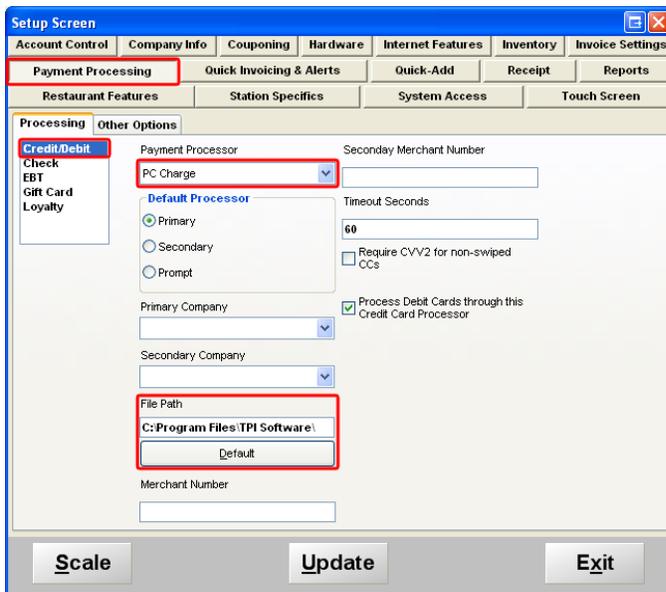

12. Select **OK** to save changes (you should now see a small "gears" icon in your system tray).

Configuring CRE or RPE to communicate with Merchant Warehouse

To configure CRE or RPE to communicate with Merchant Warehouse, start the program, select **Manager**, provide the requested credentials, and follow these steps.

13. Select **Setup** and then **Setup Screen**.

14. Select the **Payment Processing** tab.

15. Select **PCCharge** as the **Payment Processor**.

16. Under **File Path** input **C:\Program Files\TPI Software**.

Note: Everything else must be left blank.

17. Select **Update** when finished.

Congratulations!

Finish up by running a test transaction with a Credit Card known to be valid in order to verify the successful setup.
